COMPANY

PROFILE

WHO statistics found that about 2,000,000 deaths every year associated with sedentary life-style. Sedentary life-style is becoming a global problem of health hazzard. However , the height adjustable table of AEZK is speeding up a solution to this problem. Xindongqi (AEZK) advocates a healthy new way of alternating between standing and sitting to remit and improve fatigue in busy times . Our product design team includes 20 people, and the evolution of products is going very well . We only want to do one thing excellent, to help people who strive in the now to release bodies and minds. Rigorous experiments and tests starting with research and development, our solution can be optimized continuously. Our stable supply chain and mature manufacturing level can ensure quality and delivery time. We have passed industry system certifications and our products have obtained CE, RoHS, SAA, PSE, FCC and UL certificates.

Xindongqi masters a complete production and processing chain, every process is finished in our factories. We will fulfill advanced craft and management ways in each step of the process and are committed to making lower costs, faster delivery and newer products with feasible methods to win the market first chance for our clients. We have complete quality control methods including parts supply side, production process and shipment inspection. Meeting the needs of clients and solving problems for them is the starting point of all the work of Xindongqi.

Xindongqi Industrial Technology, a reliable intelligent office furniture supplier.

Production Control

"Quality, efficiency, excellence, and sincere service are the first steps to achieve efficient operation of the production process through effective planning to ensure production efficiency and stability of the production line, and effective formulation of 1+2+3 planning, control, and supervision processes.". So as to enhance the competitiveness and profitability of the enterprise and meet the needs and requirements of customers.

The company has long been committed to the research and development and manufacturing of lifting tables. Several independently developed new products have obtained national invention patents. Continuously innovate in development, such as height adjustment range, speed, stability, safety, storage space, etc., develop corresponding hardware circuits and software programs, and conduct strict quality testing on the lifting table, including service life, load-bearing capacity, mute effect, intelligent control system, etc., to ensure product quality.

- dual motors to insure smooth height adjustment and bigger loading capacity
- extendable, enhanced frame
- anti-collision, child safety lock, height setting memory

AEMK[®]

HEIGHT ADJUSTABLE TABLE

- dual motors to insure smooth height adjustment and bigger loading capacity
- wider height adjustment range, both for adult and kids
- extendable, Enhanced frame in width
- anti-collision, Child safety lock, Height setting memory

HEIGHT ADJUSTABLE TABLE

- high quality carbon steel table legs
- stable design durable and not easily deformed

AEMK®

- economic model
- good for limited space
- anti-collision function available

RXD2-3-3RN

- dual motors
- wider height adjust range, for adult, kids
- anti-collision, child safety lock , height setting memory

Colour

Black White Silver

PARAMETER

Number Of Motorss	2
Lifting Column	3-stage column, rectangular tube
Frame Wide Range	1020 ~ 1500 mm // 40.16" ~ 59.06"
Top Size	W(1200 ~ 1800 mm) × D(600 ~ 800 mm) // W(47.24" ~ 70.87") × D(23.62" ~ 31.5")
Height Range	580 ~ 1230 mm // 22.83" ~ 48.43" (Without desktop)
Max.Lifting Capacity	120 kg // 264.55 lb
SPEED	35 mm/s // 1.38"/s
Noise	≤48 dB
Colour	Black / Silvery / White / (Customizable)
Carton Size	1055 × 295 × 235 mm // 41.54" × 11.61" × 9.25"

RXD2-S-3RN

- speedy model
- dual motors
- anti-collision, child safety lock, height setting memory
